INTRODUCTION

This Recreation Plan is intended to serve as the vision and comprehensive guide for citizens and public officials in planning for the future of recreation in Mastodon Township. In compliance with Michigan Department of Natural Resources (DNR) Guidelines for the Development of Community Park, Recreation, Open Space and Greenway Plans, this Plan includes a summary of the key recreational assets of the Township, a description of the Township's administrative structure, and a summary of the public input process.

In addition, this Plan includes goals, strategies and an action plan for implementation for the next five years. It is important to note that this plan is a "working document," providing the flexibility to respond to changing conditions, new opportunities, new resources and innovations that align with the goals of the Plan and the goals of the Township.

Due to its unique relationship with neighboring Village of Alpha, many of the goals and objectives outlined in the Plan impact both entities and will require extraordinary cooperation.

The potential for tourism in Mastodon Township and the desire from property owners for recreational planning and development directs the Planning Commission to develop a separate recreational plan. This Plan would encompass the Township's existing parks: Stager Lake Park, Buck Lake Park, Camp 5 Area and an opportunity to explore possibilities with "Wilderness Shores" managed by WE Energies. Collaboration with the Village of Alpha with maintenance of the Anderson Ball Field/Pavilion, tennis/basketball courts and Balkan Mine Pit project will also be given consideration.

Furthermore, this Plan is intended to integrate with and complement the planning processes, information and objectives of the Mastodon Township Master Plan, which will be adopted in 2021.

TRANSPORTATION SYSTEM

The Township is located about five miles southwest of the City of Crystal Falls in the western Upper Peninsula's Iron County. It is a rural area and there is no public transportation available. Private transportation is facilitated through a network of state and county roads.

Running through the center of the Township, major roadways U.S. Highway 2 and County Road 424, provides residents and travelers easy access to M-69 going east; U.S. 141 to the north and U.S. Highway 2 West. It's a short drive to the two major retail/service/health care areas of the City of Crystal Falls and the City of Iron River. Further to the south and east is Iron Mountain/Kingsford which is about a 30 minute drive.

PHYSICAL FEATURES

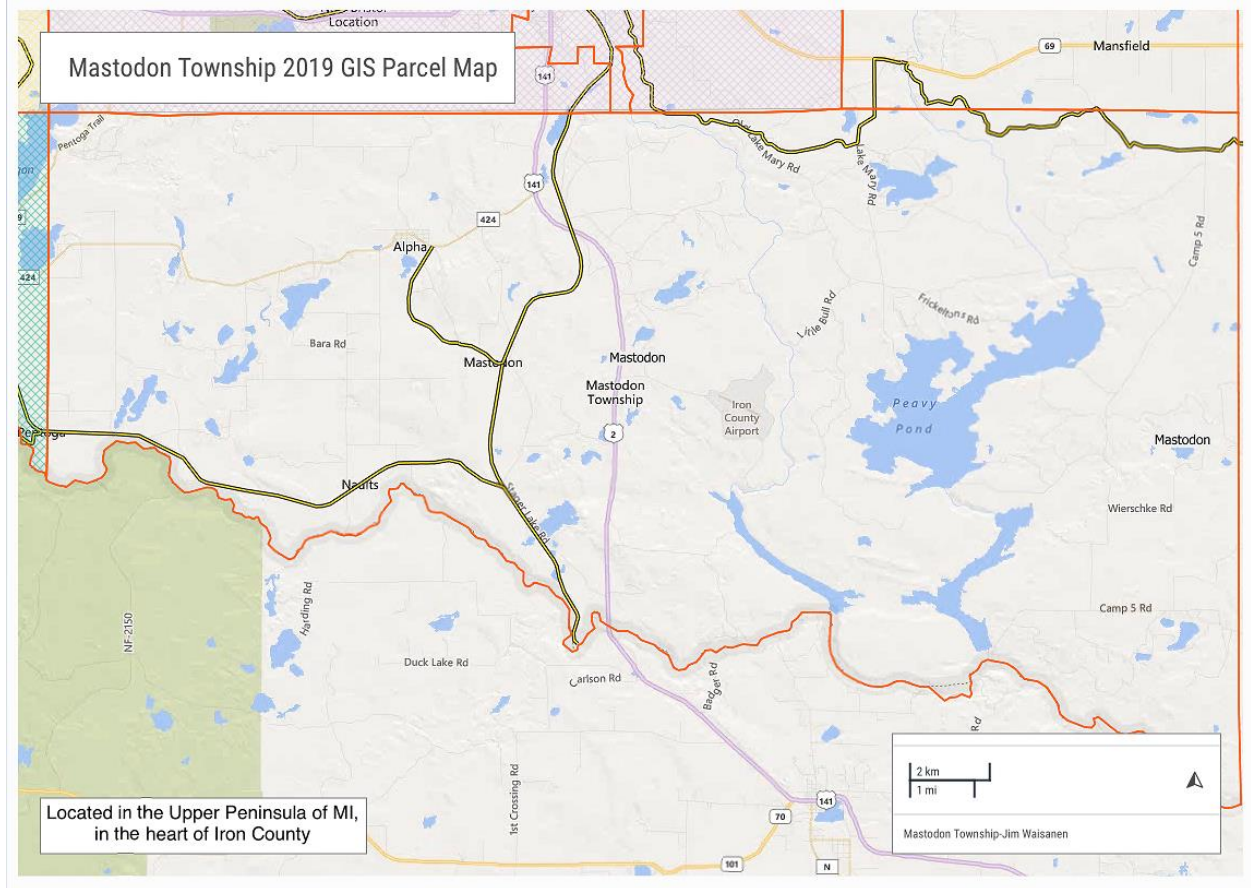

The Township is eighteen miles running east to west and eight miles running north to south. It borders Dickinson County in the east and the State of Wisconsin on the South. The Brule River acts as a natural boundary between Michigan and Wisconsin with approximately twenty miles of river frontage located within the Township.

The entire Township is a rolling topography with many rivers, streams and small lakes. Approximately two-thirds of the Township is historically centered around the Village of Alpha, which occupies a total land area of less than one square mile. The remaining third of the Township is isolated from this area by hydroelectric power dam backwaters. The Township is a mixture of forests and small farms with major areas of undeveloped woodlands and lakes.

Economically, the area is supported by local service business and property taxes, with the Township's major tax base coming from three hydroelectric power dams.

With more people and new business moving into the area, recreation use and needs have increased

MAP OF MASTODON TOWNSHIP

Township Administrative Board (current as of November 2021)

Mastodon Township is governed by a Township Board consisting of a Supervisor, Clerk, Treasurer and two Trustees. The Township Board selects members for the Planning Commission along with members for the Zoning Board of Appeals and a Zoning Administrator.

The Planning Commission meets monthly or semi-monthly according to a published schedule. The Planning Commission is responsible for advising the Township Board on recreation facilities and programs based on the ideas from the Township residents.

TOWNSHIP BOARD

SHERI SKRZYNIARZ	MEMBER	APRIL 2021 – MARCH 2024

NAME	TITLE
JEFF SEPPALA	ZONING ADMINISTRATOR

Planning and Public Participation

The Mastodon Township Planning Commission acknowledges the importance of involving the public in planning the future improvements to the Township's recreation facilities and have made efforts to involve their citizens in that process.

In 2017 a comprehensive master plan survey was sent to all property owners in the Township. The survey asked if property owners supported the Township collaborating with neighboring communities by sharing resources to create recreational opportunities, the possibility for a feasibility study for alternative uses for the Iron County Airstrip and what new recreational facilities property owners would like to see within the Township.

The survey also asked which features already in place at the established parks were used and what the suggestions for improvement were.

When the results of the survey were tabulated, recreational opportunities leaned toward non-motorized with bike trails, hiking trails and ski trails. There were a number of comments about development of the Alpha pit and getting more use out of the ball field. The Planning Commission Board questioned if residents were aware of the improvements made at the parks and thought it would be a good idea if the Township Board made available information to be included in the Chamber's recreation flyers.

Recreational Assets

Mastodon Township provides recreational facilities and opportunities for its residents and visitors. Citizens of the Township would like to see the area as a key destination for outdoor enthusiasts with natural resources preserved. The key areas are listed below:

ALPHA PARK including ANDERSON BALL FIELD

Alpha Park and the adjacent ball field is a much-used park within the Township with usage coming from all over Iron, Dickinson and neighboring areas.

BASKETBALL COURT

The basketball court is also located in the center of the Village of Alpha.

BALKAN MINE PIT

An abandoned open mine pit area, located partially within the village of Alpha limits.

STAGER LAKE PARK

A popular park for picnics, swimming, fishing and boating. Features to this park include new changing rooms, updated ADA restrooms, grills, new dock, new swimming areas and fire pits.

BUCK LAKE PARK

Centrally located for the western half of the Township and its proximity to the Village of Alpha, this park has seen recent updates to include a pavilion, boat ramp, swim area and a horseshoe pit.

LAKE MARY/GLIDDEN LAKE AREA

This area is in conjunction with the Wilderness Shores through WE Energies which includes the Peavey Dam Camping area. Public access is available to Lake Mary and Glidden Lake. Glidden Lake is a State of Michigan campground with beach access.

CAMP 5 AREA

A major year-round residential area that includes an additional Mastodon Township hall with an attached fire hall. This area also has a basketball half court and a park.

HORSE RACE RAPIDS

Located just a few miles south of the Township's main hall. The area is popular for nature enthusiasts, bird watchers and hikers alike.

AIRSTRIP/AIRPORT

The Iron County Airport is located south of the Township's main hall. The Airport is closed from December 1st to April 2nd. The Airport can accommodate single and twin-engine planes. Private hangars are available.

GOALS

The goals set within the recreational plan are:

- To provide a wide variety of year-round recreational opportunities to all residents of and visitors to Mastodon Township
- To maintain and improve our existing resources and facilities
- Improve access to recreational sites for residents and tourists

Growing demand and shrinking resources will continue to be a challenge for parks and recreational services in the Township. With strong leadership and a guiding vision, we have a unique opportunity to maximize operational sustainability by proactively responding to changing demographics, emerging trends and changing priorities; collaborating to more efficiently deliver services; and planning for future recreational growth. Meeting these goals will require partnering with local municipalities and private sector organizations and possibly with state and federal agencies as well.

ACTION PLAN

The Recreation Plan of Mastodon Township will guide the Township in the provision of stewardship of natural resources and provide an opportunity for active life-long learning, leisure, and recreation for generations to come.

To continue the growth and development of the following areas of Mastodon Township, the following improvements are recommended:

ALPHA PARK/ANDERSON BALL FIELD

➤ **PARK**

- Additional playground equipment
- Upkeep picnic tables
- Add applicable trash/recycle receptacles
- Add sand volleyball area

➤ **BALL FIELD**

- Plant grass/groom grass on the infield
- Build dugouts
- Update/renovate restrooms (make ADA compliant)
- Add bleachers
- Build concession Stand
- Add/update lighting
- Create skating rink

BASKETBALL COURT

- Resurface court
- Upkeep on hoops/nets

BALKAN MINE PIT

- Conduct feasibility study on how to best utilize the area
- Trailhead for snowmobile/ATV

STAGER LAKE PARK

- New Playground
- Improve ground underneath playground/level area with dirt
- Add floating platform
- Improve parking (boat/trailer and vehicle only designated areas)

BUCK LAKE PARK

- Add trails for year-round community enjoyment (walking, hiking, cross country skiing, snowshoe)
- Camping Area (primitive and with electricity)
- Add signage at Road 424 and entrance
- Add playground equipment

CAMP 5 AREA

- Maintain a park with picnic area

HORSE RACE RAPIDS

- Form committee to work with DNR to improve site for:
Safety (steps), restrooms, boat landing, picnic area

AIRSTRIP/AIRPORT

- Work with the county on a feasibility study to explore other uses for the area including additional access point to recreational activities

Summary

Parks and recreation are vital and an integral part of Mastodon Township. The vision to move the Recreation Plan from good to great will not be easy. This will take continued, big-pictured visioning, change, creativity, commitment, and additional resources. The Recreation Plan complements the Master Plan and provides detailed guidance in the development of the existing parks and areas. This direction is based on the community's expressed needs and desires as well as analyses of demographic changes, trends, and Mastodon's current system. This Plan provides a framework to guide long and short-term decision-making and investments in the system.

The Mastodon Township Planning Commission has identified the following areas that would ensure long-term sustainability by focusing on services that would produce the widest overall community benefit by maximizing efficiencies and sustainability.

1. Create a volunteer Rec Committee. This would be a collaborative/joint effort with residents of Mastodon Township and residents of the Village of Alpha. This committee's purpose would be to ensure the vision of the Recreation Plan are moved forward and to oversee projects that are chosen
2. Request an annual line-item budget amount from the Township to assist with keeping projects funded and an ongoing commitment to the Recreation Plan
3. By collaborating with the Village of Alpha, determining the best use of the Alpha Park and Anderson Ball Field
4. Continue and maintain the improvements to Stager Lake Park
5. Continue and maintain the improvements to Buck Lake Park
6. Erect a trailhead with map for snowmobile/ATV/UTV at Alpha Balkin Pit

Funding that may not cover all the projects outlined could be covered by sweat equity, public help, fundraising, and grants.

Parks and trails encourage healthy, happy, active lifestyles by providing a venue for physical activity. When people have access to park facilities, they are more likely to be active. Mastodon Township could be the trendsetter in the area by promoting healthy lifestyles with their abundance of recreational areas for their residents and visitors.
